

Project Progress Report -2

TAG-Personalized Car Finance Advisor

Name: Gireeshwar Chowdary Gangarapu

Student ID: 02081655

Email: Gireeshwarchowdary_Gangarapu@student.uml.edu

What Am I Proud about:

I have gathered comprehensive data on various cars, including detailed specifications and prices, utilizing APIs to ensure real-time and accurate information for users comparing options. The integration of external APIs has streamlined the process, enhanced the app's functionality, and enabled users to make well-informed decisions.

In parallel, substantial progress has been made in the design aspect of the project creating layouts and user-friendly navigations. The app's interface is designed to provide an engaging and seamless experience for users exploring different car options.

Details:

Completed user preference inquiry page, homepage, and about pages. Completed Data collections and API's on car models and pricing details

Next Steps:

- Implementing search functionality and visual comparison functionality to compare the cost of buy or rent car.
- Data base to store the data i.e. details of the car.
